

At Community Eye Care, we are dedicated to providing the highest level of care available. For this reason we offer the **Optomap Retinal Exam** to all of our patients.

This non-invasive technology allows our doctors to see a high resolution, ultra-wide view of the inner eye, **without the need to dilate your pupils** in most cases. The Optomap Retinal Exam allows for early detection of potentially blinding eye diseases such as glaucoma, macular degeneration, retinal detachment, and even malignant tumors. It also allows for detection of common health conditions such as diabetes, high blood pressure, and high cholesterol, just to name a few.

The Optomap Retinal Exam is an essential part of your comprehensive eye exam. Our Doctors prescribe it for all patients at every annual examination.

As part of your preliminary testing, our doctor's assistant has captured Optomap images for review by the Doctor during your examination today. **The \$24.00 Co-Pay for these images is not covered by insurance unless being used to actively follow disease.** Any questions you may have about the Optomap Retinal Exam can be discussed with the Doctor when the images are reviewed during your examination.

We also offer a more in-depth Wellness Package that will give our Doctors even more information on your overall eye health. This package gives our Doctors the ability to **customize** an ongoing plan to ensure your eyes stay healthy. The Wellness Package includes Optomap photos along with an additional retinal screening for **discounted price of \$29.00**

If you choose not to accept the prescribed Optomap Imaging, your eyes will be dilated so that your provider can perform a comprehensive health examination.

By choosing our optical for your glasses and/or contact lens purchases we can guarantee you are receiving products that meet our specifications and recommendations. You also receive the benefit of knowing we will be able to assist you in any concerns with your products and any warranty needs. We can be your one-stop shop for all your eyewear and care needs.

You are welcome to have your prescription filled by any optical of your choice, however, if there are any issues with your glasses or contact lenses, we cannot provide assistance. Our doctors make personalized recommendations regarding lens options and measurements; therefore, we cannot guarantee that glasses and/or contacts ordered outside our office meet our recommendations. For any concerns you will have to work with the optical where you purchased your materials.

Included below is important information to review prior to receiving your contact lens prescription.

The Centers for Disease and Prevention (CDC) makes clear, "Contact lenses can provide many benefits, but they are not risk-free -- especially in contact lens wearers don't practice healthy habits and take care of their contact lenses and supplies. If patients seek care quickly, most complications can be easily treated by an eye doctor. However, more serious infections can cause pain and even permanent vision loss, depending on the cause and how long the patient waits to seek treatment."

The CDC recommends the following for contact wearers:

- Schedule a visit with your eye doctor at least once a year
- Take out your contacts and call your eye doctor if you have eye pain, discomfort, redness, or blurry vision
- Understand that eye infections that go untreated can lead to eye damage or even blindness (2)

The Food and Drug Administration (FDA) indicates:

- "To be sure that your eyes remain healthy you should not order lenses with a prescription that has expired or stock up on lenses right before the prescription is about to expire. It's safer to be re-checked by your eye care professional." (3)

Notice of Privacy Practices and Payment Policies

Privacy Practices: The law requires that this Community Eye Care practice make every effort to inform you of your rights related to your personal health information. By signing below, I acknowledge that I was given the opportunity to read, have read or had explained to me this Community Eye Care's Notice of Privacy Practice prior to any services offered OR that the Notice of Privacy Practice could not be read due to the emergent nature of the care and will be acquired when possible.

Information Release: By signing below, I authorize this Community Eye Care practice to release my personal health information to the following individuals:

Communication: Community Eye Care may use standard phone, email, and text messaging to communicate with you. These forms of communication are not secure and do not guarantee privacy.

- ☐ By signing below, I authorize the use of these forms of communication to communicate with me.
- ☐ By signing below, I do not authorize the use of these forms of communication to communicate with me and I will provide an alternative method of communication.

Preferred Communication _____

Insurance Authorization: By signing below, I authorize Community Eye Care to release any information; including diagnosis and the records of any treatment or examination rendered to me to my insurance provider. I authorize and request that my insurance company pay Community Eye Care benefits otherwise payable to me. I understand that my insurance company may pay less than the charges submitted. I understand that it is my responsibility to provide the correct insurance and/or payment information. Failure to provide correct information may result in you becoming responsible for the entirety of the costs for services and materials rendered.

Financial Responsibility: By signing below, you understand that due to frequent changes in insurance policies, it is not an easy task for Community Eye Care to correctly interpret the details of each policy. It is recommended that you, as the patient, verify with your insurance

provider if you are unsure of your coverage. Although Community Eye Care makes every effort to remain aware of these changes, it may not always be possible to give you an accurate estimate of your copays.

Your signature provides acknowledgment of your financial responsibility including but not limited to the following circumstances: estimates of your copays do not match the explanation of benefits we receive from your insurance provider, Community Eye Care is out of network with or does not accept payment from your policies, your insurance provider denies payment, or your deductible has not been met. Payment for all services, elective testing, and materials rendered on you or your dependents' behalf is expected on the day of service or order.

Payment Policies: By signing below, you understand that if we are unable to collect all payment due at the time of service/order, we will send you a statement monthly. If we do not receive payment after 90 days a collection fee of 50% will be added to your bill and we will send your account to an outside collection agency. If there are extenuating circumstances, Community Eye Care may have alternative payment options to assist you, please ask us about these if needed.

Signature: If you are signing as a personal patient representative, please indicate your relationship. If you are signing for a minor, you attest that you have legal authority to make medical decisions for the minor. I have read and understand this form and I am signing it voluntarily.

Community Eye Care ABN (Advanced Beneficiary Notice)

An ABN is required when:

- Medicare is the insurance provider and materials are purchased.
- Patient's insurance does not cover a specific service or procedure.
- A refraction is performed during a medical appointment. A refraction checks for an updated glasses prescription.
- The patient does not have any medical or vision insurance.

By signing below, you agree to pay any incurred charges that your insurance provider does not pay in full for any services or materials purchased over the next 12 months.
